Instructions for Minor Revisions:

- Complete this form when the proposed changes will impact the words, numbers, or symbols as presented in the current catalog copy (often referred to as "changing the footprint of the catalog").
- Catalog copy is available at http://www.fgcu.edu/catalog/. Scroll down to "Academic Programs" on the left navigation bar. Select Minors and choose the Minor to be edited. Select "Print Program Details" in the upper right corner. Copy and paste catalog copy into a Word document. Turn on the tracking function (be sure that both additions and deletions appear in the tracking). Update the catalog year and make edits. Save the document as a Word file.
- When the proposed changes are approved by the College Curriculum Team, the College Administrator will send the following to Peggy Raynor in OCI by October 31 for implementation the following catalog year.
  - An electronic MS Word version of the tracked catalog via email.
  - A color hard copy of tracked catalog copy and this Minor Revision Proposal via campus mail.
  - An electronic MS Word version of a degree curriculum map via email (please refer to question #13 below for further explanation).
- If changes are for courses only and there is no impact on the catalog copy, this revision form is not necessary. When these "stand alone" courses have been approved in CMS, the CMS College Administrator should send a list to Peggy Raynor in OCI. The same October 31 deadline applies.
- All changes to courses are completed via the Curriculum Management System (CMS)
- Reminder: The prefix/number for a new course is handled one way in the catalog copy and another in CMS. In the catalog copy, identify a new course with the suggested title, suggested prefix and course level, plus XXX (e.g. ART 4XXX). When final approval for the course prefix/number is received from Statewide Course Numbering System, the catalog copy will be updated. In CMS, a new course is requested by entering the suggested title and suggested prefix/number with no XXX. See instructions in CMS for selecting an appropriate suggested prefix/number.
