I. Purpose for Appointment and Review of Graduate Faculty

The quality of the graduate degrees granted by Florida Gulf Coast University depends upon the qualifications and expertise of the faculty members involved in the university's graduate programs. The policies and procedures below are designed to ensure that faculty members appointed to Graduate Faculty membership meet the high academic and professional standards expected of those participating in Master's- and Doctoral-level programs. In addition, these policies and procedures are designed to ensure that Florida Gulf Coast University’s graduate programs will meet the standards of the university’s regional accrediting body, the Southern Association of Colleges and Schools.

A college also may elect either to adopt uniform criteria and standards for all of its graduate programs or to accommodate program-level differences in criteria and standards, provided that in all cases these meet or exceed the minimum standards listed below. These college criteria and standards shall be reviewed by the unit's academic dean, the Graduate Affairs Team, and the Dean of Graduate Studies in the order indicated before being forwarded to the Provost. Each reviewer shall forward the proposed college criteria and standards with recommendation to the next reviewer, with the final determination made by the Provost.
