Strategic Plan Goal 6 - Community Engagement

**Unit Goal**

**Goal for 2010-2011**

Increase opportunities for general audience awareness of and appreciation for FGCU initiatives, academic programs and community outreach activities. Provide greater community exposure for FGCU Administrators, Faculty and Students.
What action(s) will you undertake to achieve the goal?
Produce and broadcast FGCU Perspectives monthly. Identify FGCU as a provider of WGCU programming services throughout the seven counties of SW Florida through multiple announcements, daily, on WGCU-TV and FM. Publish articles by FGCU faculty in WGCU Public Media's member magazine, Expressions. Work with the FGCU Foundation to expand the reach of and increase revenues for Pinnacle Magazine. Explore opportunities to provide greater exposure for FGCU athletics programs. Work with FGCU Community Relations and Marketing to produce video content for placement on a variety of distribution platforms.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
Most objectives will be fulfilled within existing production and staff resources. Athletic projects and CR&M video projects will require additional funding from internal or external sources.

Within your unit’s leadership team, who will be responsible for completion of the action?
Rick Johnson, Barbara Linstrom, Toby Cooke, Barbara Steinhoff, Amy Tardif, Terry Brennen

By what means will you assess goal achievement?

Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?
Goal 1: Academic Excellence   Goal 3: Strategic Growth

Unit Goal
Goal for 2010-2011
CAS Goal: Advance Quality Academic Programs: The College will provide a quality educational experience for its students. Specifically, the College will work to add new academic programs in order to increase programmatic offerings for our students.

What action(s) will you undertake to achieve the goal?
During the 2009-2010 academic year, the College of Arts and Sciences did not add any new academic programs at the undergraduate and graduate level because of the scarcity of resources. Having been given approval to plan several programs, we will continue to explore adding the following programs over the next three years: Fall 2010 BA Journalism MS Mathematics Fall 2012 BME Music Education These degrees can only be added if we are provided new resources. Working towards adding these programs will increase opportunities for study for our students.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
To complete this action item we will need additional faculty lines, tuition waivers and assistantships, and staff resources.

Within your unit’s leadership team, who will be responsible for completion of the action?
Faculty and Chairs in the respective areas; Associate Dean for Curriculum; Dean.

By what means will you assess goal achievement?
The College will assess achievement of this goal through tracking the development and approval of new programs.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
The College will successfully meet this goal if new programs have been developed, taken through the appropriate curriculum processes, and approved by the Dean, Provost, and Board of Trustees.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
One of the goals of the strategic plan of the university is to increase our offering of academic programs for our students. Each of the new programs that we will work towards developing includes clear learning goals and outcomes and sustainable and meaningful assessment strategies; as a result, along with the increase in program offerings, we will be able to create processes to assess the increase in student learning.

Strategic Plan Goals

Goal 3: Strategic Growth

Unit Goal
Goal for 2010-2011
CAS Goal: Add Quality Faculty - The College will recruit highly qualified faculty who are outstanding teachers and scholars in numbers adequate to fulfill the mission of the College and to provide breadth and depth in our programs.

What action(s) will you undertake to achieve the goal?
The College will track the number of faculty lines needed to fulfill our mission and to offer more breadth and depth in our programs. Based on our analysis completed over the last two years, with continued growth at 10-12% per year, the College will need a total 205 faculty in Fall 2010 to achieve a 70% FT/30% PT ratio in all areas of teaching, including all areas of General Education. This constitutes an increase of 29 new faculty over the 2009-2010 AY (in 2009-2010, we have a total of 176 faculty). The College has been provided 15 new faculty lines for Fall 2010, leaving a deficit of 14 faculty lines for the 2010-2011 year. We will continue tracking our faculty hiring and projected enrollment in order to ascertain how many faculty we will need for the 2011-2012 year.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
For the 2010-2011 AY, we are short approximately 14 faculty lines (we will have 191 if all hires are successful, though we projected a need for 205). For 2011-2012, we will need additional faculty lines beyond these 14 to meet the demands of continued enrollment growth. We project a need for a total of 225 full-time faculty to meet the demands of 9% university-wide growth, which equated to 11% CAS growth. This is an addition of 34 new faculty lines.

Within your unit’s leadership team, who will be responsible for completion of the action?
The Associate Dean for Planning and Assessment for making projections; the Dean, working with the Chairs and the faculty for requesting faculty lines.

By what means will you assess goal achievement?
We will work with the Provost's office to provide data on the number of lines needed to achieve a high quality educational experience in the College of Arts and Sciences, offering increased breadth and depth to our programs and achieving a 70%/30% ratio in all areas of General Education. We will track the number of new faculty lines provided to the College and apply those lines to areas that are in need.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
The College will know if it has achieved this goal if it has been provided adequate faculty lines to increase breadth and depth in our programs and to attain a 70% FT/30% PT ratio in all areas of General Education, as well as adequate lines to cover any increases in enrollment.

How will the results of the above assessments be used to improve fulfillment of the university’s
mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
obligations to both General Education and to our undergraduate and graduate programs.

Goal 3: Strategic Growth

Unit Goal
Goal for 2010-2011
CAS Goal: Quality Staff - The College will recruit and retain highly qualified staff in numbers adequate to fulfill the mission and obligation of the College

What action(s) will you undertake to achieve the goal?
The College has, over the last three years, requested additional staff that would allow us to meet our enrollment and other needs, including staff to support large enrollment classes, increasing numbers of faculty in very large departments, and special programs and projects that meet the mission of the institution. We will continue to request staff to meet these needs.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
Additional staff lines will be needed for 2010-2011 and 2011-2012 based on our analysis.

Within your unit’s leadership team, who will be responsible for completion of the action?
The Dean, working with Chairs and faculty.

By what means will you assess goal achievement?
The College will assess achievement of this goal through tracking the funding provided to hire staff in the College of Arts and Sciences, as well as tracking our ability to hire appropriate personnel into each position.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark,
survey...benchmarks should include current status and goal to be achieved)

Coordinator - Foundations Service Learning Coordinator Executive Secretary - Marine and Ecological Sciences Math Computer Lab Coordinator - Support new Math and Psychology computer labs in AB7  In addition, for the 2010-2011 year, the College of Arts and Sciences plans to reorganize, adding new departments that will need new staff support. Adding these additional staff will provide the support the college needs for faculty and students and assist us in meeting the demands of increase enrollment over the last three years.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Adding staff to the College is central to providing adequate support to faculty and to allowing us to serve our students. With growing enrollments and growing faculty, additional staff support is crucial for the college to meet its obligations, including increased average class size, increased numbers of faculty in departments, increased advising needs, and increased overall enrollments. The College has added new Scale-Up classrooms in AB7, and added staff positions are necessary for us to be successful in these courses.

Unit Goal
Goal for 2010-2011
CAS Goal: Maintain Quality Academic Programs and Meet Enrollment Growth Needs --
The College will work to maintain high quality academic programs and courses while also meeting the needs of increased enrollment growth. Specifically, the College will track the average class size in all courses.

What action(s) will you undertake to achieve the goal?
The College will track the average class size in all areas across the College, including General Education and the Programs. We will seek to maintain an average class size of 35.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
Additional resources may not be needed to meet this goal by itself; however, coupled with the goal of having a 70% FT/30% PT SCH ratio, we will need additional faculty.

Within your unit’s leadership team, who will be responsible for completion of the action?
The Associate Dean for Planning and Assessment will track class size and will work with the College of Arts and Sciences Leadership Team to meet our goal.

By what means will you assess goal achievement?
The College will assess achievement of this goal through tracking the average class size in all areas of General Education and the Programs.
How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey... benchmarks should include current status and goal to be achieved)

The College will have successfully attained this goal if we have maintained an average class size of 35 across the College.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

Maintaining an average class size of 35 meets the expected goal for the College of Arts and Sciences and allows the College to meet increasing enrollment demands.

**Goal for 2010-2011**

CAS Goal: Maintain Quality Academic Programs and Meet Enrollment Growth Needs --

The College will work to maintain high quality academic programs and courses while also meeting the needs of increased enrollment growth. Specifically, the College will track the percentage of Student Credit Hours generated by Full-time faculty and work to increase this percentage in key areas.

What action(s) will you undertake to achieve the goal?

The College will track the ratio of Full-time to Part-time faculty teaching in all areas of General Education. We will seek to have a 70% FT to 30% PT ratio of Student Credit Hour production, especially in General Education areas of composition, social sciences, and mathematics.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?

Additional faculty resources will be required to meet this goal.

Within your unit’s leadership team, who will be responsible for completion of the action?

The Associate Dean for Planning and Assessment, working with the College of Arts and Sciences Leadership Team.

By what means will you assess goal achievement?

The College will assess achievement of this goal through tracking the ratio of SCH taught by FT faculty and by PT faculty in the Fall semester, and comparing that percentage to previous years. We will request additional lines if necessary to meet this goal.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey... benchmarks should include current status and goal to be achieved)

The College will know if we have successfully attained this goal if we hire enough faculty to attain the 70% FT/30% PT faculty ratio in all areas of General Education.
How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Increasing the percentage of courses taught by Full-time faculty in areas where we were below the suggested 70% target would allow us the opportunity to offer students increased interaction with highly qualified faculty who are engaged in the university community.

Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?
Goal 7: Discovery and Application of Knowledge

Unit Goal
Goal for 2010-2011
CAS Goal: Support Faculty Scholarship -- The College will work to provide support for faculty scholarship and sponsored research.

What action(s) will you undertake to achieve the goal?
The College will work to provide support in the College for faculty scholarship and sponsored research through providing funds (as available) to purchase lab and other equipment, providing stipends (as available) to initiate grant writing, to provide support for field studies in the social sciences and humanities, and mentoring faculty on their scholarship.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
The College will need resources for purchasing equipment and supporting faculty scholarship, especially grant writing and field studies.

Within your unit’s leadership team, who will be responsible for completion of the action?
The Associate Dean for Planning and Assessment and the Dean working with the College of Arts and Sciences Leadership Team.

By what means will you assess goal achievement?
The College will assess achievement of this goal through tracking the generation of funding for college projects, the development of calls for proposals, and the successful submission of grants. In addition, we will continue to track scholarship and grants and awards.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
The College will demonstrate successful attainment of these goals if funding was procured for lab equipment, grant writing, and field studies in all areas of the college (sciences, social sciences, and humanities), and grants were submitted. In addition, the College will demonstrate success if we maintain or increase the amount of scholarship produced and the number and amount of sponsored research.
How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

Providing support for faculty to work on scholarship and sponsored research demonstrates that the college and the university are committed to maintaining a high level of quality in its scholarship, even with our emphasis on teaching. Tracking scholarly output allows the College to demonstrate its commitment to research and scholarship, seeking external resources to support its work and external validation of the work completed internally. Attending conferences and publishing articles and books allows for the dissemination of information and provides avenues for feedback.

Strategic Plan Goals

With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?

Goal 6: Community Engagement

Unit Goal

Goal for 2010-2011

CAS Goal: Advance Civic Engagement -- The College will assess student learning in the Foundations for Civic Engagement class in order to improve the learning goal of Community Awareness and Involvement.

What action(s) will you undertake to achieve the goal?

The College will complete an assessment of the Foundations of Civic Engagement class through creating and implementing a Civic Engagement Project across all sections of the Foundations class. We will create a rubric and a holistic scoring process for this assessment with a feedback loop to the Foundations faculty and the CAS faculty, with the goal of improving student learning.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?

The College will need to allocate ongoing resources to this college-wide assessment project, as well as to the training of faculty for teaching Foundations.

Within your unit’s leadership team, who will be responsible for completion of the action?

The Associate Dean for Planning and Assessment working with the Interdisciplinary Studies program leader and the Foundations faculty.

By what means will you assess goal achievement?

We will use an assessment process based on a clear assignment, mature rubrics, and a feedback loop that will lead to improved student learning. We will assess this goal based on tracking the development and implementation of this process.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)

The College will know if it has attained this goal if the assessment process has been developed, implemented, refined, and used to improve student learning.

How will the results of the above assessments be used to improve fulfillment of the university’s mission?
mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

The assessment will improve student learning of Community Awareness and Involvement, furthering service learning and Civic Engagement, key learning outcomes and elements of our mission and guiding principles.

Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?

Goal 1: Academic Excellence  Goal 3: Strategic Growth

Unit Goal
Goal for 2010-2011
CAS Goal: Right-size the CAS Budget -- The College will work with the Provost's office to right-size the CAS Budget. Specifically, we will work to right-size the Fall-Spring adjunct/overload budget and the Summer budget.

What action(s) will you undertake to achieve the goal?
The College will track adjunct/overload and summer costs, average class size, FT-PT ratios, course releases, and other information relating to faculty teaching loads in order to determine an adequate number of full-time faculty and the resulting needs for adjunct and overload budgets and summer budgets.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
The College will need additional adjunct/overload budget and increased summer budget in order to have a right-sized budget.

Within your unit’s leadership team, who will be responsible for completion of the action?
The Associate Dean for Planning and Assessment working with the Dean, Budget Manager, and the Provost's office.

By what means will you assess goal achievement?
We will assess achievement of this goal through determining if the College has received adequate budget to cover Fall-Spring adjuncts and overloads and Summer costs.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
The College will know if we have attained this goal if we have received adequate budget to cover adjunct/overload and summer costs in the 2011-2012 year.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
The university has stated in its goals that it will "pursue a course of strategic growth, in line with its capacity." In order to grow the university within its means we must provide adequate budget to cover classes while giving students adequate access to full time faculty.
Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?
Goal 1 -- Academic Excellence    Goal 3 -- Strategic Growth

Unit Goal
Goal for 2010-2011
CAS Goal: Attain sufficient space for faculty offices and teaching -- The College will work with the Provost's office to put forward a plan for locating all CAS faculty on the main campus in permanent offices and to provide adequate teaching spaces for humanities, arts, and social sciences.

What action(s) will you undertake to achieve the goal?
After completing a college reorganization (to take effect Fall 2010), the College will undertake the creation of a plan to house all faculty in permanent offices and to create sufficient teaching, performance, and learning spaces for humanities, arts, and social sciences.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
The College will ultimately need additional buildings and realignment of spaces in existing buildings.

Within your unit’s leadership team, who will be responsible for completion of the action?
Dean of the College.

By what means will you assess goal achievement?
The College will assess achievement of this goal through tracking the development of a plan and sharing that plan with the Provost's office.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
Our benchmark will be the creation of the plan and the response of the Provost's office to this plan.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Providing sufficient faculty offices, classrooms, and meeting spaces give students access to better learning facilities and faculty access to each other and to the administration of the college.

The LCOB's faculty database (FRPD) and the APDRs will be used to monitor faculty scholarship.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey... benchmarks should include current status and goal to be achieved)
In the period 2005-2010, an estimated 36 out of 47 full time faculty published, with a college average of 3.5 publications in peer reviewed journals per capita. Success will be all scholarship reported within 6 months & a college publication average exceeding 3.5 per capita.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Scholarship is a means of professional development that increases faculty qualifications and enables them to bring current information & techniques into the classroom, thereby improving student learning. Improved teaching and an excellent scholarship record increases the likelihood of the LCOB maintaining AACSB accreditation, contributing to FGCU’s academic excellence and growth.

**Within your unit’s leadership team, who will be responsible for completion of the action?**
Associate Deans & Director of Enrollment Management Director of Enrollment Management; Director, CLI
By what means will you assess goal achievement?

studying abroad in 2010-2011

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey... benchmarks should include current status and goal to be achieved)

One advisor will be hired & the student: adviser ratio will decrease from 933:1 to 600:1. The combined % of international students in the LCOB & LCOB students abroad will exceed the .8% 2008-2009 baseline

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

Cross cultural experiences will enhance student learning and developmental and diversity opportunities.

Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?

Goal 3 - Strategic growth Goal 1 - Academic Excellence

Unit Goal
Goal for 2010-2011
The LCOB will strategically grow by attracting, retaining & graduating students consistent with the LCOB mission & vision.

What action(s) will you undertake to achieve the goal?

Begin to strategically manage undergraduate & graduate enrollments to match targets set by FGCU. Increase standards for entrance to LCOB, if necessary. 2. Identify a was to track retention, graduation & employment rates for undergraduate students, including by FTIC, transfers, & minorities Deliver useful & complete information to students at transfer orientation

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?

Advising & clerical positions, accomplishment of action #2 & 3. Advising & clerical positions

Within your unit’s leadership team, who will be responsible for completion of the action?

Director, Enrollment Management; Associate Deans; LCOB Undergraduate & Graduate Program Committees Director, Enrollment Management; Associate Dean for Academic Planning & Assessment Director, Enrollment Management

By what means will you assess goal achievement?

Monitor enrollment, retention & GPA Whether or not a system has been identified Post-orientation Survey

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark,
survey...benchmarks should include current status and goal to be achieved

knowledge questions will meet or exceed current 4.3 average. All attendees will answer “Yes” to the question “Do you have a good understanding of the FGCU registration process?”

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

Improves strategic growth & student learning by helping to better align resources & capacity with enrollment growth. Improves strategic growth & student learning by helping to better align resources & capacity with enrollment growth. Also addresses improvement of advising services. Addresses retention & strategic growth by informing students so they are less likely to get “lost” in university processes & leave FGCU from frustration.

Strategic Plan Goals

Goal 6 - Community Engagement

Unit Goal
Goal for 2010-2011
The LCOB will create & foster business & community partnerships that are regionally responsive to the economic development needs of southwest Florida & strengthened through state, national & global outreach.

What action(s) will you undertake to achieve the goal?
Develop a system to identify & track faculty scholarship & service that contributes to the economic development of SW Florida. The SBDC will continue to offer educational programs valuable to small and medium sized businesses on such topics as business planning, marketing, & access to capital in areas of economically disadvantaged geographic locations. Partnering with SCORE, EDC’s, Agencies and lenders to insure all areas and groups of “hard to reach ethnicities”, minorities, DBE’s and veterans all have access to information and services. The Regional Economic Research Institute (RERI) will: Continue community service and outreach by giving presentations and media interviews. Complete regional economic studies Continue to expand and enhance the monthly regional economic newsletter, indicator report, and regional economic database.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
1,2,3. Clerical & professional support positions; Increased supply budget 2. Increased financial resources

Within your unit’s leadership team, who will be responsible for completion of the action?
Associate Dean for Academic Planning & Assessment Director, SBDC Director, RERI
By what means will you assess goal achievement?

presentations; number of regional economic impact studies; Improved monthly newsletter & indicator report

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)

A rough estimate from self-reporting indicates that 5 scholarship activities directly contributed to SWFL in 2008-2009. Success would be that not only does the college have a working system, but can document a significantly larger contribution to the SWFL economy. Number of programs will be equal to or greater than 100 (2 hr) seminars in 2010; Number of clients will be equal to or greater than 1,000 in 2010; High satisfaction with outcomes Provide at least ten presentations or media interviews per year; Complete at least three economic studies per year; Review the value of existing indicators and add at least one new feature or enhancement, or replacement each year.

How will the results of the above assessments be used to improve fulfillment of the university's mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

This impacts community engagement by directly impacting SW Florida and involving faculty & staff in the community. It will also impact faculty scholarship, by encouraging scholarship contributing to the community

Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?

Goal 1: Academic Excellence Goal 3: Strategic Growth

Unit Goal
Goal for 2010-2011
The WSOE will initiate steps to launch new engineering degree programs that will produce graduates by 2015 (next anticipated ABET visit for accreditation of new degree programs).

What action(s) will you undertake to achieve the goal?

Complete the Proposal to Establish the BS in Software Engineering if given permission to change the start date from fall 2012 to fall 2011 in the FGCU Strategic Growth Plan. Complete significant portions of the Proposal to Establish the BS in Software Engineering if the start date remains as fall 2011. Begin the process of phasing out the BS in Computer Science as the BS in Software Engineering becomes available. Continue planning the BS in Construction Engineering and BS in Alternative Energy Engineering if the Proposals to Plan that were submitted in fall 2009 are approved. Develop the Proposal to Plan at least one new engineering degree program that would have graduates by 2015.
What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?

No new resources are required for the planning phase of new degree programs other than faculty time to develop curricula, acquire relevant data, and write the documents. New faculty and support staff will be required when new degrees are implemented, with the possible exception of the BS in Software Engineering since it will replace the existing BS in Computer Science.

Within your unit’s leadership team, who will be responsible for completion of the action?

Susan Blanchard, Founding Director Lisa Zidek, Academic Program Director

By what means will you assess goal achievement?

Feedback from the IT and Software Engineering Advisory Board with regard to the proposed BS in Software Engineering and removal of the BS in Computer Science will provide assessment of this part of the goal. Feedback from the WSOE Advisory Board and/or appropriate departmental advisory board with regard to proposals for new engineering degree programs will provide assessment of this goal.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)

If approved to plan for a fall 2011 start date, the completed Proposal to Establish the BS in Software Engineering will be submitted to the UCT for consideration in November 2010 and to the FGCU BOT in the spring of 2011. If the BS in Software Engineering remains on schedule for fall 2012, then a significant portion of the Proposal to Plan will be completed by spring 2011 for submission to the UCT in fall 2011. At least one Proposal to Plan a new engineering degree program is submitted to the UCT by November 2010.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

Moving forward with new engineering degree programs will help the university address the call for new programs in BOG-defined strategic needs areas, which include engineering (a Key Performance Indicator for Goal 3). Since all new engineering programs will apply for accreditation as soon as a single student graduates, this also addresses one of the Key Performance Indicators for Goal 1 (number of accredited programs).

Strategic Plan Goals

Goal 7: Discovery and Application of Knowledge

Unit Goal
Goal for 2010-2011
Faculty in the WSOE will engage in productive scholarly activities.
What action(s) will you undertake to achieve the goal?
workshops to enhance scholarly activities depending upon availability of travel funding. Faculty will submit proposals for grants and/or contracts and/or will collaborate with other investigators both within FGCU and outside of the institution who are submitting proposals for grants and/or contracts.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
Sufficient financial support is needed to maintain research laboratories within Holmes Hall. The WSOE received no additional E&G funds to support supplying and maintaining laboratories in Holmes Hall, a 70,000 sf building with 6 specialized research laboratories. An additional laboratory manager is needed to adequately support the faculty so that they can fulfill their research potential and secure external funding to support their scholarly activities.

Within your unit’s leadership team, who will be responsible for completion of the action?
Susan Blanchard, Founding Director Bob O’Neill, Chair, Department of Environmental and Civil Engineering Jim Sweeney, Chair, Department of Bioengineering Sim Komisar, Environmental Engineering Program Director

By what means will you assess goal achievement?
Faculty and staff annual reports and reviews will be used to determine the number and type of publications and presentations as well as the number and types of grant and contract submissions and awards.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
The faculty as a whole will average one peer-reviewed publication (conference or journal) per person. The faculty as a whole will generate proposals that are awarded at least $100k.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Submitting new proposals, funding of sponsored research, and number of faculty publications are all key performance indicators for Goal 7.

Unit Goal
Goal for 2010-2011
Develop a strategic plan for non-credit programming at the newly-acquired 500 acre Buckingham property.

**What action(s) will you undertake to achieve the goal?**
Perform an investigation of the current facilities in order to assess programmatic possibilities; Utilize focus groups to engage area residents, business, government, and industry representatives within a twenty-minute drive time to ascertain desired programming; and Prior to June 30, 2011, draft a strategic plan for vetting by the Provost with regard to non-credit programming opportunities.

**What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?**
Resources are difficult to quantify at this time. A review of the property has not been performed so we are unable to assess learning environment, potential remodeling, and purchase of classroom furniture and technology. However, having said this, each potential classroom will require standard university technology, e.g. CPU, projector or flat screen, visual camera, etc.

**Within your unit’s leadership team, who will be responsible for completion of the action?**
Steven Bloomberg -- Executive Director of Continuing Education John Guerra -- Director of Continuing Education John Van Hook -- Program Manager

**By what means will you assess goal achievement?**
1. This goal will be assessed with regard to achievement when a strategic plan is written, vetted and approved by the Provost, and put into action with regard to non-credit programming at the Buckingham property.

**How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)**
1. We will have attained this goal when the plan is placed into action and non-credit programming is offered at this educational venue.

**How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?**
The results from this strategic plan and related programming will fulfill the university’s commitment to community engagement and involvement as dictated by our Mission Statement.

Open new learning center in the Herald Court Centre in downtown Punta Gorda, Florida.
What action(s) will you undertake to achieve the goal?
(CRA) and FGCU; Oversee build-out of space with regard to classroom and office requirements; Oversee purchase of furniture, fixtures, and equipment (FF&E) package for new center; and Develop a comprehensive schedule of Renaissance Academy and Professional Development programming for the fall, 2010 semester.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
The resources required for this project include the funding of furniture, fixtures, and equipment for the new facility. This amount is estimated at $90 - $100k and includes all classroom furnishings, office furnishings, reception area furnishings, and classroom technology, including the purchase of 20 laptops for computer classes.

Within your unit’s leadership team, who will be responsible for completion of the action?
Steven Bloomberg -- Executive Director of Continuing Education John Guerra -- Director of Continuing Education John Van Hook -- Program Manager

By what means will you assess goal achievement?
Goal achievement will be assessed, and achieved, if the facility is on-line for the fall, 2010 semester and includes a comprehensive non-credit course schedule.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
This goal will be achieved if the facility is open for classes in the fall, 2010 and a comprehensive schedule of adult lifelong learning courses and professional development programming is offered.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
The opening of this strategic facility contributes directly to the university’s mission of community outreach and involvement.

Strategic Plan Goals

Community Engagement

Unit Goal
Goal for 2010-2011
Increase total headcount with regard to both public and private sector professional development programs by a minimum of ten percent over 2009-10 headcounts. 2009-10 CE headcount is 783 and IOG is 1,753 for a total of 2,536. A ten percent increase would mean a total FY 2010-11 headcount of 2,789.
What action(s) will you undertake to achieve the goal?

others. Ensure educational opportunities are offered in geographic locations whereby professionals through the five-county area are able to take advantage.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?

Resources required are existing staff in the area of Continuing Education and IOG as well as continued use of the Go Sign Me Up registration system and Constant Contact as a marketing/promotional tool.

Within your unit’s leadership team, who will be responsible for completion of the action?

Steven Bloomberg -- Executive Director of Continuing Education John Guerra -- Director of Continuing Education Joanne Hartke -- Director of the Institute of Government

By what means will you assess goal achievement?

At the conclusion of FY 2010-11 we will compare overall headcount to that of 2009-10 to ascertain the achievement of the ten percent growth.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)

Compare and analyze headcount trends from the current and past academic year. Compare and analyze total number of programs offered from the current and past academic year. This measure will demonstrate programmatic growth as well as headcount growth. As is our current practice, continue to assess each educational program with a student survey to ensure classroom product meets expectations of client demographics.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

When the ten percent headcount growth is achieved this will assist the university in fulfilling the growing demand for community and outreach services.

Goal 1: Academic Excellence Goal 2: Student Life, Growth, and Development

Unit Goal
Goal for 2010-2011

What action(s) will you undertake to achieve the goal?
Instructional Support Program. The Instructional Support Program delivers Supplemental Instruction and Math and Science Walk-in Lab tutoring to all FGCU students taking lower-level (1000 & 2000 level) math and science courses. Supplemental Instruction (SI) is an international academic support model developed in 1973 by the University of Missouri-Kansas City. Supplemental Instruction assists students to succeed in by providing out-of-class sessions multiple times per week. Supplemental Instruction and Math and Science Walk-in Lab tutoring opportunities for FGCU students will increase for the 2010-2011 academic year. Supplemental Instruction and Math and Science Walk-in Lab tutoring will also be used by the coordinators of the Academic Retention program for students on the academic standing list, and Step Ahead students.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
Currently, instructional support takes place in three classrooms and also in all housing villages. Space is an issue; at least one, if not two, additional classrooms are needed. Each classroom is equipped with a large (53") flat screen TV and computer with internet access. Current text books for all courses covered support the student leaders delivering instructional support. Approximately 40-45 student OPS workers and 30-40 student volunteers will deliver the instructional support tutoring during the 2010-2011 academic year.

Within your unit’s leadership team, who will be responsible for completion of the action?
Entire Center for Academic Achievement A&P staff (Director, three coordinators). We have requested a fourth coordinator as our student load is great.

By what means will you assess goal achievement?
Student Participation reports. Student Surveys. Faculty surveys. Grade reports. Academic Standing list report.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey... benchmarks should include current status and goal to be achieved)
Student participation with CAA instructional support should continue to increase. This year, we had a 590% increase in student attendance and participation with instructional support as compared to last year. We expect these numbers double next year. We also expect student satisfaction with instructional support program increases consistently across all areas assessed. We expect more students on the academic standing list will participate; our goal is a 50% increase.
How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

Both student leaders deliver instructional support as well as students participating as learners in instructional support will benefit from the student engagement opportunity provided. As increasing numbers of faculty participate and support instructional support, increasing numbers of students will also be benefited; students will not only increase their opportunity for academic success, but also for persistence and thus retention. Student tutors also have unique leadership opportunities as they lead other students in instruction as well as they enhance student integration with the university community.

Strategic Plan Goal 1: High Quality Education; Strategic Plan Goal 8: Ongoing Quality Improvement

Unit Goal
Goal for 2010-2011
Data from direct internal embedded assessments, with external validation, will be collected and analyzed for the purpose of making curricular changes to improve student learning for at least one General Education Competency per course in the General Education Program (GEP).

What action(s) will you undertake to achieve the goal?
The General Education Program (GEP) Leader will meet with program leaders and faculty to begin implementing strategies for continual direct internal embedded assessment of at least one General Education Competency from a representative sample of student work within each GEP course. Goals for student learning of the Competency chosen for each course will be set by faculty within that course according to approved university procedure, and assessments will be validated externally. Internal assessment data will be collected throughout the academic year, and analyzed by program leaders and faculty at the end of each year, for the purpose of making curricular changes to improve student learning for the following academic year. Internal assessment with external validation will be conducted on a continual and ongoing basis. Funding for the Creative Course Design in General Education in General Education faculty grant competition will continue to provide incentive for innovative course design, competency development, and assessment strategies within the GEP. The grants will also continue to build identification and awareness among GEP faculty of their special status as program members dedicated to improving student learning at FGCU.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and
define existing as well as new resources that will be required?

General Education Competencies within each course will be determined by faculty for each course, and communicated to their respective program leaders, department chairs and deans. University-wide resources needed for the assessment and improvement of student learning for the General Education Competencies will be determined by the General Education Assessment Task Force and/or the Provost's Blue Star Group. The Creative Course Design in General Education faculty grant program requires a total of $10,000 annually, to be distributed in the form of individual grants of $2500 for a new course proposal, or $1500 for a substantive redesign of an existing course.

Within your unit’s leadership team, who will be responsible for completion of the action?
The General Education Program Director, in cooperation with GEP program faculty.

By what means will you assess goal achievement?

Internal course goals will be determined and evaluated by faculty within each GEP course. Data collected by GEP course faculty will also be shared with the General Education Program Director, who will collate and report the results, along with any recommendations for future action, to the General Education Council, General Education Assessment Task Force and/or Provost’s Blue Star Group for their review and recommendations.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)

Internal course goals, learning outcomes, and benchmarks for each General Education Competency will be determined by GEP faculty within each course respectively. University-wide goals, learning outcomes, and benchmarks for each Competency will be determined by the General Education Council, General Education Task Force and/or Provost's Blue Star Group.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

Internal course assessment results for each General Education Competency will be analyzed by GEP faculty within each course respectively, with the goal of improving student achievement of the Competency for that course. Summaries of assessment results for each Competency will be utilized by the General Education Council, General Education Task Force and/or Provost's Blue Star Group to develop recommendations for university-wide policies designed to improve student achievement of each Competency at FGCU overall.

Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?
3. Strategic Growth
Unit Goal
Goal for 2010-2011
Structure Honors so that it can admit students from The President's Gold Scholarship, National Merit Scholarship, and PTK Scholars Program, along with all qualified FTIC and FGCU applicants while still growing toward the premier program in the State.

What action(s) will you undertake to achieve the goal?
Write a five year plan for Honors that will address both the staffing shortages and structural impediments to Honors' growth. This plan will include staffing and resource needs, solutions to current issues, and ways to make sure FGCU Honors works to become the premier program in the State. Implement this plan if approved; continue to rework planning if denied.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
We will need a full-time Honors Director, full-time Coordinator, and full-time Program Assistant. Staffing is critical as we are already well above capacity. We will also request several instructor positions over the next 5-years. Ideally, it would be six lines by 2013-2014.

Within your unit’s leadership team, who will be responsible for completion of the action?
Sean Kelly

By what means will you assess goal achievement?
Present Academic Affairs with a 5-year plan for Honors.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
Honors has enough staff so that the Associate Provost deems it possible to admit all qualified applicants. Honors has a funding structure that allows for sustainable staffing of honors courses.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
If we have the staffing and funding issues resolved, we will be able to admit all qualified applicants; thus fulfilling Honors’ primary mission to recruit and retain top students. We will implement a training program for faculty teaching honors courses.

**What action(s) will you undertake to achieve the goal?**

Supplemental funding for additional Writing Consultant hours and a Coordinator (new position) will be sought to maintain the quality and accessibility of the services provided by the Writing Center. Additional funding for online writing tutoring service will also be sought. Student satisfaction with writing assistance provided will be tracked by conducting assessment. Faculty satisfaction with Summer Writing Institute program will be tracked by conducting assessment at the end of the presentations.

**What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?**

Existing: Approximately 16 part-time Writing Consultants and the Director (.5 faculty member @ $19,000) will work to achieve the above goals. New: 1. Funding for online writing tutoring services is needed to better assist distance learners and to make writing tutoring more accessible for all students. 2. A full-time Coordinator position will facilitate the development of services and the addition of new services to support students and faculty.

**Within your unit’s leadership team, who will be responsible for completion of the action?**

Writing Center Director

**By what means will you assess goal achievement?**

End-of-semester assessment questionnaires completed by tutees. Assessment completed by faculty participants in Summer Writing Institute.

**How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)**

Assessment questionnaires will indicate that students find Writing Consultants helpful and that the Writing Center hours and resources are satisfactory. The assessment questionnaires completed by faculty following Summer Writing Institute workshops will indicate that the content of the presentations was helpful.

**How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?**

1. Issues identified in the questionnaire assessment will be addressed in tutor training and development and will be re-evaluated in next assessment questionnaire. Maintaining/increasing student satisfaction with Writing Center services will assist the University in its mission by supporting student learning in writing, a crucial skill. 2. Issues identified in the assessment questionnaires following the Summer Writing Institute will be addressed as the next program is developed. Maintaining/increasing faculty satisfaction with the Summer Writing Institute will assist the University in providing opportunities for faculty to enhance the teaching of writing across the curriculum.

 Academic Excellence Student Life, Growth & Development

Unit Goal
Goal for 2010-2011
Provide faculty and students with state of the art technology tools and support that will foster academic excellence and enhance student life, growth and development.

What action(s) will you undertake to achieve the goal?
Continue to petition for funding to replace obsolete academic technology equipment. Continue to equip newly constructed academic spaces with state of the art technology based on faculty and student input and relevant pedagogy. Continue to distribute service satisfaction surveys. Continue to meet with Deans, faculty and students to determine their specific technology needs. Continue to monitor monthly service statistics.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
NEW... Funding to replace obsolete equipment (network gear, teaching podiums, classroom computers, new software... $500,000.) NEW... Additional (4) FTE staff; additional $20,000 OPS funding

Within your unit’s leadership team, who will be responsible for completion of the action?
Director, Academic & Event Technology; Asst. Director Academic & Event Technology.

By what means will you assess goal achievement?
Solicit faculty/student feedback via surveys and regular meetings. Review monthly service stats.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
Overall rating of surveys should not be less than "good." Faculty and student feedback will be positive when solicited. Research technology will be established and robustly supported by AET staff to the satisfaction of relevant faculty.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Implementation of research technology will establish FGCU as a center for associated activities and attract high caliber faculty and students. Continued exemplary delivery of academic services (in classrooms and for special events) will establish a pattern of service excellence for FGCU.

Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?
Goal 1: Academic Excellence

Unit Goal
Goal for 2010-2011
Continue to build a process for continuous improvement for all academic programs within the College.

What action(s) will you undertake to achieve the goal?
Develop a system to collect needed data for various accreditations (CACREP, DOE, NCATE, SACS) and generate reports by course, program or standard. Dedicate 2 days per year for program review. Review the annual pass rates on subject area and professional state exams to determine if a program needs to be adjusted.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
Hiring of a data manager - existing

Within your unit’s leadership team, who will be responsible for completion of the action?
Associate Dean, Lois Christensen - Blue Star representative

By what means will you assess goal achievement?
The College will have NCATE accreditation site visit in 2012. Small steps will be assessed along the way to make sure the process is working. We will also continue to review the pass rate on state exams as our goals will be to maintain and/or improve. Also, we will maintain our current accreditations, such as DOE, SACS & CACREP and these external reviewers will provide valuable feedback on our program.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
We will know we have developed an effective process when reports can be generated by program, course or standard to show how well students are meeting specific standards and the reports can be analyzed and then used to make recommendations for needed changes. The entire program review process will yield strengths and weaknesses in the program and provide substantive data to drive program adjustment aimed toward increased student learning. We will have an assessment system that ensures we are closing the loop.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
The results of the above assessments can be used to improve fulfillment of the University mission in several ways. We will have data to determine the success of student learning and faculty will have opportunity to use the data and/or collect additional to further their research.

Strategic Plan Goals

The faculty is given service credit for advising the student chapter of Eagles Educate ACEI and encourage students to join this professional organization. The organization meets on campus and participates in university sponsored activities. Candidates may apply for a $100 stipend to defray the cost of attending their national organization conference.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
The faculty and administrators count their service as part of their work responsibilities. Dean Marci Greene allocates funds from the Dean's Account.
Within your unit’s leadership team, who will be responsible for completion of the action? students representing their chapters at national organization conferences.

By what means will you assess goal achievement? At the end of the academic year the productivity of the organizations will be reviewed for impact on the community and individuals, awards received, increased membership, and other observable or measurable outcomes. At the end of the year Dean Greene will assess how many stipends have been awarded.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved) The members of Kappa Delta Pi will have been invited to participate in off-campus activities, and the candidates will have completed service activities. The membership for KDP will have grown from the previous year, and participants will participate in their national conference. The FGCU chapter will win an award. Chi Sigma Iota, the Counseling Honor Society, will be reinstated. It will complete all required reports. It will increase membership. It will complete service activities and attend the national conference. The members of Eagles Education-ACEI will have been invited to participate in off-campus activities, the candidates will have completed service activities, and participated in the national conference. The membership for Eagles Educate-ACEI will have grown from the previous year. The FGCU chapter will be nominated for an award. Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?
Goal 1: Academic Excellence Goal 2: Student Life, Growth, And Development

Unit Goal
Goal for 2010-2011
To further internationalization of the campus the department will seek to increase and diversify the numbers of international students enrolled at FGCU. The department will develop stronger coordination of Faculty Led Study Abroad programs to provide student opportunities for growth, development and openness to diversity, and to support faculty in creating study abroad programs.

What action(s) will you undertake to achieve the goal?
Identify possible international student sponsor programs and submit applications to host sponsored international students, especially from countries not strongly represented at FGCU. Identify and pursue appropriate international student recruitment strategies. Monitor student participation in international partnership agreements and recommend or pursue changes to encourage stronger, reciprocating and relevant participation in international partnerships. Design an effective administrative process to support the development and operation of faculty led study abroad programs.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and
define existing as well as new resources that will be required? and assist international students. A university policy is already in place which supports tuition waiver for sponsored international students. Funds and staff time will be needed to develop an international student recruitment plan, marketing strategies and resource materials, and potentially to travel to recruitment conferences, schools or overseas. Less than $1,000 has been sparingly used for several basic recruitment initiatives, although currently no funds are designated for this purpose. Any significant recruitment planning, initiatives and processes will require an increase in staff resources. Staff will need to devote significant time to review of all international partnerships and funds will be needed to support partnership development. Some international travel may be necessary. No funds exist to support this. Additional staff support may be required to administer and maintain the activities of such partnerships. Current staff structure does not provide adequate support for faculty led study abroad programs. A full time administrative position should be added to assist in designing effective institutional processes, and operating these programs. In addition, a crisis response plan needs to be developed and training for faculty leaders and other administrators needs to be developed and presented. This will require significant staff time, not currently supported in the department.

Within your unit’s leadership team, who will be responsible for completion of the action?
Action 1: Director, Assistant Director Action 2: Director, Assistant Director Action 3: Director, Assistant Director, Executive Secretary Action 4: Director, Executive Secretary

By what means will you assess goal achievement?
Goal achievement will be assessed using:
- annual comparisons of international student enrollments and their home countries,
- identifying and applying to potential international student sponsor agencies/governments,
- identifying and implementing international student recruitment strategies,
- semester and annual review of international exchange partnership participation,
- Faculty Led Study Abroad policies, procedures established.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey... benchmarks should include current status and goal to be achieved)
international student enrollments will increase by 10 students, and 2 new countries will be represented, from the current academic year. Four potential sponsor agencies will be identified and applications submitted to host an international student in the coming academic year. Two international student recruitment initiatives will be implemented or current initiatives will be further developed. A review of international exchange partnerships participation will be conducted, for the current academic year and recommendations for future changes will be made to Academic Affairs. Current forms and processes used for Faculty Led Study Abroad will be reviewed, redesigned and distributed. Faculty training to lead programs and crisis response for administrators will be developed.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
The assessment will indicate level of effectiveness in increasing and diversifying international student enrollments, student participation in study abroad and exchanges, faculty skills and preparation to lead study abroad programs and effectiveness of international partnerships. Programs identified as having limited student or faculty participation may be recommended for discontinuation, while programs with stronger participation may be further enhanced. Fiscal and risk management of faculty led study abroad programs will be improved, and program quality for students will be enhanced.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
Short term will be through annual crime statistic comparisons, student satisfaction survey results from Student Affairs (housing, transportation, and security). Keep student/officer ratio below 800:1.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
The results will be through a safe environment that allows for the learning, growth and enjoyment of the students, faculty and visitors for all aspects of campus life.

2) Replacement of non-native melaleuca trees with native plant material to better the environmental health of campus and to meet South West Florida Water Management District mitigation requirements.
What action(s) will you undertake to achieve the goal?
Department of Corrections. A contracted engineering firm will assess and approve the plan prior to implementation to assure that all work meets the South West Florida Water Management District (SWFWMD) mitigation requirements. Eradication of the last stand of melaleuca trees inside the loop road; this project has been postponed by Facilities Planning over the last four fiscal years: The five acre parcel inside the Loop Road, adjacent to the Parking garage will be removed. The complete eradication of full grown melaleuca trees inside the Loop Road was postponed due to the aesthetic barrier provided for construction projects. Once this project is allowed to proceed, the cleared area will be added to the chemical treatment program to inhibit re-growth of melaleuca.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?

Within your unit’s leadership team, who will be responsible for completion of the action?

By what means will you assess goal achievement?
Mitigation monitoring and land use assessments will be conducted by an outsourced environmental engineering firm throughout the year. Reports will be submitted to SWFWMD to measure compliance with land use requirements.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
Mitigation monitoring and land use assessments will be submitted to SWFWMD to measure compliance with land use regulations. Physical Plant will use the reports to assess whether internal department goals are met and will share all information with the FGCU Environmental Sciences program and Facilities Planning.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Successful mitigation reduces environmental and fire risks to the campus and improves the overall health and appearance of campus grounds.

3) Renovations to the following facilities: Student Union Expansion Project Repair and replace deficient classroom seating in phase one Retrofit lighting in phase one buildings to increase efficiency Install motion sensors in classrooms and common areas in phase one buildings to reduce energy costs
What action(s) will you undertake to achieve the goal?
Meet with departmental representatives to determine needs and expected outcomes. Work with campus service architects to develop plans and specifications to bid. Submitted bids will be compared and awarded to campus service construction management firms for each project. Actual construction work will be scheduled and supervised to ensure specifications requested are completed on time and within budget.

Discussions with departmental representatives to obtain feedback on how well the actual outcome compared to the expected outcome.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
Departmental representatives will provide positive feedback regarding the renovation process during post project discussions.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Comments and concerns from occupants of renovated areas will be considered in future renovation projects. Successful addition of chillers will provide more energy efficiency and cooling capacity.

- ...copiers), including papers that were parts of construction presentations such as binding and staple holes that are usually outside printing margins. Use 100% recycled paper when a fresh sheet is required, this paper has proven to work well in the copiers, faxes and printers.

- 4. "Eagles Heart Tap Water" campaign to reduce bottle waste across campus. This campaign is not original to FGCU; ideas have been borrowed from other higher education facilities such as MIT, UC Berkley and UVM: FGCU pays thousands annually to bring clean, safe drinking water to campus. Water is tested weekly and meets all county, state and federal standards. Studies show that bottled water is not healthier than water that is provided to, tested by Lee County Utilities and managed by Physical Plant. The test water refill spigot and informational sign was installed at the fitness center on the water fountain. Feedback from campus recreation staff and people using the fitness center has been extremely positive. Vertical refill spigots have been ordered for installation in several more high use, high profile locations to expand education and participation in the program. With further positive results, the program will be expanded across campus. Reduced bottle waste will reduce FGCU's carbon footprint due to fuel savings from the manufacture of bottles and for transportation of water to campus. Reduction of bottle waste is anticipated to also reduce waste removal costs.

- 5. Funding will be requested for additional solar powered trash compactors to reduce waste volume and waste removal costs.

- 6. Informal support of student environmental organizations, initiatives and activities: Students are often in need of information for school projects or student organizations and request data such as: recycling programs, energy and electricity use, waste removal, mitigation efforts, garden projects, and other items that fall within the grounds and facilities managed by Physical Plant. Students meet with Physical Plant staff to obtain requested data, learn what practices are in place and are often invited to tour areas to obtain a broader perspective. Efforts to support students in such a manner will continue as these efforts have always been important to the Physical Plant administration.

- 7. Cleartainers with various tops and informational sticker configurations will be added to more high use, high profile areas on campus to increase exposure and encourage greater cooperation with recycling. Feedback will be obtained from the custodial staff and campus population to determine which additional extra efforts provide the best results, consistent compliance. Results will be used to determine if volume of recycled matter increases and waste volume is reduced prior to investment in additional containers.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?

- Inspections of classrooms, common areas, vending areas and break rooms. Analysis of incinerator tonnage data provided from Lee County Solid Waste Division to determine if procedures on campus reduce waste volume and subsequent costs. Customer satisfaction surveys are distributed to primary and secondary users of the Work Management Center annually and include recycling as a rating category.
How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

Allocation of resources to increase environmental sustainability efforts: Enhance the FGCU experience for all who study or work at the University. Supports the University’s mission to reduce negative environmental impacts. Demonstrates responsibility and stewardship of campus grounds and facilities.

5) Provide continuous service for all areas of campus in a timely and efficient manner.

What action(s) will you undertake to achieve the goal?
1. Meet or exceed Work Management Center turnaround goals by Priority, specifically:
   Emergency work requests will be completed within 1 day. Urgent work requests will be
   completed within 3 days. Routine work requests will be completed within 5 days.
   Preventative Maintenance will be completed within 30 days.  
2. Receive favorable results from assigned campus departmental representatives in the 2009-2010 customer satisfaction survey.  
3. Quality control inspections to be completed each semester to ensure classrooms and common areas are maintained and to identify problem areas:
   Report warranty issues to vendors and follow up on repairs. Issue work orders and dispatch technicians to repair or replace:
      Damaged ceiling tiles. Damaged carpet, tiles or baseboards. Dirty or stained walls, stair rails or other fixtures. Burned out ballasts and light bulbs  
4. Customer service improvements will be made via increased communication:
   Annual participation in new employee orientation with general information on services provided through Physical Plant and how to access services.
   Training sessions will be offered to all primary and secondary users of the WMC during early August to improve efficiency in making work requests. Common use areas will be inspected and stickers posted to inform staff, students and visitors how to report service needs in restrooms, locker rooms, classrooms and other common areas. Use of door tags left by technicians to indicate:
      Work has been completed. Work is in progress, estimated completion date ____. Parts/materials have been ordered. Need more information from requestor to complete, call WMC 1370. WMC and technician information provided for follow up or questions. Bilingual custodian and subcontractor business cards to hand to those who make direct service requests to non-FGCU personnel with instructions to contact the Work Management Center for the fastest response.
   Custodial services door color-code system updated as campus departments modify their level of custodial access and security within their office areas.  
5. Review of internal standard operating procedures, modifications will be made as needed to reduce turnaround times on work requests:
   Data analysis and productivity reports used to track progress towards goals. Improve accuracy of information recorded by technicians on work orders to better reflect actual work turnaround times. Improve speed of data entry updates to reflect actual work turnaround times.  
6. Staff on Intranet Directory streamlined, keep Physical Plant staff on one directory.  
7. Education and additional training within Physical Plant to enhance understanding of how the productivity level of each staff member contributes to:
   Departmental Unit Goals  
   Administrative Services Unit Goals

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?

Organizations are also increasingly performing their building maintenance with fewer personnel. Respondents report employing one maintenance staff member for every 49,000 square feet of office space this year, compared to one staff member for every 47,000 square feet in 2006.

Within your unit’s leadership team, who will be responsible for completion of the action?

By what means will you assess goal achievement?

Customer satisfaction survey distributed annually to primary and secondary users of the Work Management Center. Data analysis of productivity reports generated from Work Management Center by priority and shop. Periodic building inspections to assess state of facilities.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark,

positive responses than 2009-2010 results. Specifically: General Service survey, more than: More than 33% Exceeds Expectations More than 42% Meets Expectations Less than 3% Does Not Meet Expectations Special Request survey: More than 24% Exceeds Expectations More than 39% Meets Expectations Less than 1% Does Not Meet Expectations

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

Productivity reports will provide valuable information about how efficiently requests for work are received, prioritized, assigned, completed and closed out. Turnaround reports by priority and by shop will identify areas that operate effectively to meet departmental goals and those that need improvement. This data will be used to modify standard operating procedures to enhance overall efficiency. Survey responses will provide important data on whether campus departments are satisfied with the level of service and efficiency of work completed by Physical Plant. Survey results and updated FAQ responses will be sent to campus departmental representatives and saved in the coral share folder for review. The FAQ responses will address common areas of concern and invite additional feedback to keep lines of communication open between service providers and recipients. Use of these assessment tools will ultimately provide the means to ensure students benefit by learning in an atmosphere where campus grounds and classroom facilities are clean, well maintained, aesthetically pleasing and foster school pride.

What action(s) will you undertake to achieve the goal?
relationships with High School and Community College counselors.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
One new Recruitment position has been identified. A Customer Relationship Management (CRM) system is needed to build a strong relationship with prospective students and to be able to conduct more direct and targeted recruitment.

Within your unit’s leadership team, who will be responsible for completion of the action?
The Director of Admissions supported by the Associate Directors.

By what means will you assess goal achievement?
Review on a comparison basis the numbers of incoming inquiries, applications and admitted students.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
Compare actual figures with targets.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Achievement of this goal will contribute to individual student improvement by providing more educational opportunities to students of Southwest Florida and beyond.

Goal 3

Unit Goal
Goal for 2010-2011
Improve the overall efficiency and workflow within the operations area, to reduce response times, lesson the manual workload and keep up with the increasing number of applications.

What action(s) will you undertake to achieve the goal?
Continue to follow the Undergraduate Admission Five Year Strategic Plan as submitted to the VP Administrative Services in the Fall of 2008. Of the priorities in the plan the focus on 2009/2010 will be: 1- to implement EDI inbound for the electronic receipt of transcripts. 2- work on proposal to acquire a document imaging system 3-research potential contact management software systems to vastly improve recruiting efforts 4- Progress banner technical projects as prioritized through the Student Data Group 5- continue to review internal staffing levels and organization to cope with new technologies as they occur.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and
define existing as well as new resources that will be required?
new technologies and new work flows, changes to existing job descriptions and the
addition of a new position may be required. New technologies: EDI, imaging and CRM

Within your unit’s leadership team, who will be responsible for completion of the action?
The Director of Admissions, the Associate Director for Admission Operations and the
Assistant Director for Information Resources

By what means will you assess goal achievement?
Comparative admission reports, edit reports and processing workload reports will be
used to assess goal achievement.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark,
survey... benchmarks should include current status and goal to be achieved)
A reduction in response times and errors will be our primary indicator. In addition the
backlog in phone calls, emails and completed files for each Admissions Officer will be a
key indicator.

How will the results of the above assessments be used to improve fulfillment of the university’s
mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Increased efficiencies will improve service to our prospective students.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
Acceptance of the submissions by the BOG staff and Board as appropriate.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
The annual report details progress made toward goals of the BOG and university’s strategic plan that are a prerequisite for funding requests from the State of Florida. The work plan details how requested funds will be used to fulfill state and university goals in the coming year. The BOG submissions of files/reports are required by law. Again all these documents contribute to the maintenance and enhancement of the university in fulfillment of its mission by demonstrating through the submission of plans and data that FGCU is substantially achieving its mission. This in turn results in the release of state funds for further growth and development of FGCU's programs and services.

Enhanced student assessment
What action(s) will you undertake to achieve the goal?
Analyze and disseminate results of the 2010 NSSE administration. Conduct Noel-Levitz Student Satisfaction Inventory. Conduct Student Assessment of Instruction.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
The current staff (2FTE) of the office is increasingly occupied with the administration of SAI which has basically doubled in magnitude in the last 9 years. From 30,000 forms a year to approximately 80,000 currently. In order for all the assessment work to proceed an additional computer specialist position is needed.

Within your unit’s leadership team, who will be responsible for completion of the action?
Associate Dean for Planning and Institutional Performance.

By what means will you assess goal achievement?
For the first two objectives we will look at response rates of students, and the sharing of results with key offices and departments on campus. For the 3rd objective we will look at the number of forms processed and reports prepared within the specified timeframe.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
For the first two objectives we will set a benchmark of 20% response rate which is fairly typical of student response rates to such surveys today. We will provide incentives for students to respond. For the 3rd objective we will set a goal of 35,000 forms for the fall 2010, 1050 packets, and 460 reports to be completed by March 1, 2011.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Results from the first two surveys will be used to improve student services. Results from SAI are used by faculty to improve classroom instruction.

What action(s) will you undertake to achieve the goal?
Submit a UBOT-approved university strategic plan 2010-2015 for approval to the FL Board of Governors. Coordinate implementation of the strategic plan through the auspices of the Planning and Budget Council.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
Existing resources should be adequate to fulfill the objective.

Within your unit’s leadership team, who will be responsible for completion of the action?
Associate Provost for Planning and Institutional Performance.

By what means will you assess goal achievement?
With respect to the first objective, presenting a completed strategic plan to the UBOT for consideration at its June 2010 meeting, and subsequently submitting that approved plan to the Florida Board of Governors by the end of July 2010. Achievement of the second goal will be assessed by the ongoing monitoring of the Planning and Budget Council and its constituent committees according to the planning, assessment, and budgeting annual cycle.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey... benchmarks should include current status and goal to be achieved)
The first objective will be successfully attained when the FL BOG accepts the UBOT approved strategic plan for 2010-2015. The second objective will be determined by attainment of benchmarks set forth in the strategic plan or in unit action plans.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Implementation of the new strategic plan is designed to further fulfillment of the university's mission from which its goals are derived. This will result to improvements to student learning, university services, and productivity of faculty research/scholarship among others.

What action(s) will you undertake to achieve the goal?
OPIP will support the work of the Faculty Senate's Program Review Team, the work of the Blue Star Group and the General Education Task Force. It will also file all requisite reports to the BOG and SACS' COC.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
Existing resources in OPIP with the addition of the computer support specialist position mentioned above will be required.

Within your unit’s leadership team, who will be responsible for completion of the action?
By what means will you assess goal achievement?
The number of completed program reviews, response meetings, and 1-yr follow-up meetings for 2010-2011. With regard to the BSG, completion of assessment tasks as required by BOG and COC. With regard to the General Education Assessment Task Force, development of an acceptable assessment plan and schedule for measuring general education outcomes.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
For the 2010-2011, the PRT expects to conduct 9 program reviews, 9 response meetings, and 4 1yr-follow-up reviews. With regard to the BSG, the expected outcomes are a series of updated program assessment plans for all academic programs and completed annual reports. For the General Education Assessment Task Force, the measure of success will be a completed round of student outcomes assessment, and a plan for ongoing outcomes assessment.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
The results of these activities will be the improvement of student learning and the delivery of the FGCU curriculum.

- Lobby state and federal officials to avoid any legislation which negatively impacts universities and to receive any special appropriations requested. Work with the House and Senate Leadership and our local delegation members to resolve any issues regarding higher education legislation. Secure sponsors for any special appropriations requests we may develop. Work with local public and private partners to garner support for projects.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?

Maintain excellent communication between partners utilizing electronic communications, in person meetings, white papers, Lobbytools subscription, reports and research material. No new resources needed.

Within your unit’s leadership team, who will be responsible for completion of the action?

Director Jennifer Goen, with administrative assistance from Erin Miller.

By what means will you assess goal achievement?

Review the State and Federal budgets for appropriations relating to FGCU and passage of legislation creating high quality public policy for higher education.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
Successful passage of legislation, and appropriations at state and federal level.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)? These achievements will continue to provide the President and Cabinet with the flexibility, funding and added resources to meet the needs of the university and our students.

**Strategic Plan Goals**
*With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?*
Goals 1 and 2

**Unit Goal**
**Goal for 2010-2011**
Continue to work toward purchase and implementation of AdvisorTrac for academic advising and data collection. Provide customized reporting of Orientation data to Admissions to help enrollment management efforts. Enhance the EVO student staff training model to better serve the programmatic needs of both Orientation and First Year Advising. Revamp currently used assessment tools for the EVO program through Student Voice.
**What action(s) will you undertake to achieve the goal?**

Incoming students. Work with our contact at Student Voice to revise the assessment tools used in EVO to better assess program outcomes and provide feedback for session presenters. This includes a revision of the current student program evaluation, and the creation of a comprehensive parent/family program evaluation.

**What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?**

AdvisorTrac software would need to be purchased, and support maintenance (implementation, tech support, etc.) would need to occur. No new resources - EVO staff would be able to generate needed reports. Courses could take place in spaces not used for classes (SU, for example), provided these rooms have the necessary technology available. Training development and course supervision would be provided by NSP. ANGEL would be used to store key handouts and course information, as is currently the case for our Orientation Leader training. While additional costs to move toward the implementation of staff training courses are not anticipated, they would be absorbed by NSP. FGCU has an existing contract with this service provider, so no new resources are needed.

**Within your unit’s leadership team, who will be responsible for completion of the action?**

Adam Musolino (Associate Director, FYA) sits on the Executive Council of the Academic Advising Council, and has taken the lead on this project. Andy Cinoman (Director, New Student Programs) and Jillian Pawliczak (Program Assistant) will work directly with Admissions on this issue. Andy Cinoman will work with the College to determine if these courses can be approved for the Spring, 2011 semester. At that point, Andy will work with Adam and Frank Graceffo (Coordinator, EVO) to make necessary changes to the student training model. Andy Cinoman and the Assistant Director of EVO will work with Student Voice on this project.

**By what means will you assess goal achievement?**

N/A Assessment of the utility of the data provided to Admissions will be ongoing. Programmatic assessment of the EVO program will include questions about the effectiveness of the Orientation Leaders in fulfilling their stated job duties. FYA has begun an internal assessment process of its advisors, and Peer Advising can be evaluated through this mechanism. N/A

**How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)**

N/A Again, ongoing discussion with Admissions would have to focus on how the data we provide is being used, and if it is valuable to the overall student yield. N/A

**How will the results of the above assessments be used to improve fulfillment of the university’s**
mission (e.g., student learning, faculty research/scholarship, university services, etc.)? Comprehensive information about the effectiveness of our orientation programming will allow us to better meet program outcomes, so students and their families are well-prepared for the college experience.

Assist in the planning and development of Eagle Games for fall 2010.

What action(s) will you undertake to achieve the goal?
Mentor the planning committee and advise other departments to contribute to the development of Eagle Games for fall 2010.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
A budget for Eagle Games will need to be established by the planning committee. Advertising and coordination with other departments.

Within your unit’s leadership team, who will be responsible for completion of the action?
The Dean of Students will advise and mentor the Eagle Games planning committee.

By what means will you assess goal achievement?
By participation of over 10 teams in the Eagle Games activities.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)

Unit Goal
Goal for 2010-2011
Continue to improve the professional staff development opportunities for Dean of Students’ Office staff members.

What action(s) will you undertake to achieve the goal?
In conjunction with the Dean of Students' Office staff development committee, include meaningful programs, speakers, conferences, and training to assist staff members in the enhancement of the performance of their duties.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
A budget for items like training materials for staff development and the ability to bring speakers or have staff attend conferences or workshops.

Within your unit’s leadership team, who will be responsible for completion of the action?
The Dean of Students will advise and mentor the Dean of Students’ Office staff development committee.

By what means will you assess goal achievement?
Through the use of StudentVoice to assess the staff following workshops, speakers, and other training and development initiatives to determine if they were meaningful and effective in further developing them as staff at FGCU.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
A budget to print final copies of the Student Code of Conduct booklet and other marketing materials to help to notify the campus of the changes to the Student Code of Conduct.

Within your unit’s leadership team, who will be responsible for completion of the action?
The Dean of Students, the Assistant Director of Judicial Affairs, and the student conduct review committee.

By what means will you assess goal achievement?
If the Student Code of Conduct revisions are passed by the Board of Trustees in April.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
By assessing the student leaders who are involved in Student Government pre and post Flight School using StudentVoice.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Students learning outcomes will improve and skills enhanced. Each of these goals speak to the areas under the Dean of Students' Office umbrella. Goal 2: Student Life, Growth, and Development

Unit Goal
Goal for 2010-2011
To provide additional opportunities for students to be involved in the Fraternity & Sorority Community by adding new organizations to campus

What action(s) will you undertake to achieve the goal?
We are currently in the process of bringing on a new NPC Sorority to begin colonization efforts next fall. Secondly, we are adding to the number of NPHC organizations we currently have on campus. We are also collecting recruitment data from the IFC Fraternities from their spring and fall recruitment efforts to determine necessity for growth.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
We will be bringing on a new staff member this summer - Coordinator for Fraternity & Sorority Life. Other needed resources are recruitment data/statistics and University meeting rooms and lecture halls, which are existing.

Within your unit’s leadership team, who will be responsible for completion of the action?
Director of Student Involvement and Coordinator for Fraternity & Sorority Life

By what means will you assess goal achievement?
We will use Evaluations and Satisfaction Surveys to determine if our expansion process is successful, both with National Organizations, existing organizations, and students participating in any colonization processes.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
If students and organizations are satisfied with current practices.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
It will allow for a healthy increase of organizations within the Fraternity & Sorority community, allowing for personal growth, student learning, and leadership development opportunities.

Goal 2

Unit Goal
Goal for 2010-2011
To promote the personal growth and development of students who have been through the student conduct process.

What action(s) will you undertake to achieve the goal?
Begin the process for future implementation of the EPIC (Engagement, Personal Development, Interpersonal Development, Community Membership) model for student conduct hearings. Will begin by working with the Coordinator for Housing Student Conduct on modifying this model to the needs of Florida Gulf Coast University. Train staff, twelve total, in University Housing and the Dean of Students' Office on how to evaluate students during the hearing process in accordance with the EPIC model. Begin implementation of the EPIC model at FGCU by spring 2011 at the very latest.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
Materials obtained from the conference workshop lead by the University of Texas at San Antonio staff will be used as a model in the development of the EPIC model for student conduct hearings at FGCU. The existing eight hearing officers in Student Housing and two hearing officers in the Dean of Students' Office, as well as the graduate assistants for Judicial Affairs and Housing Student Conduct will be the staff who develop this model for FGCU and will be trained on how to use it.

Within your unit’s leadership team, who will be responsible for completion of the action?
The Assistant Director of Judicial Affairs will be responsible for completion of these actions.

By what means will you assess goal achievement?
Assessments of the students will be done following the completion of the EPIC process.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
If students indicate that their sanctions helped them to develop and grow personally in the one or more areas of engagement, personal developments, interpersonal development, and community membership by participation in sanctioning requirements in line with the EPIC model, then we will have successfully attained the goal.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
When students are able to grow and develop personally through their involvement in student organizations, leadership positions, attending campus events, finding a mentor, etc., they become more active members of the university community. This in turn will enhance their overall university experience and detour them from repeating behaviors that caused them to be involved in the student conduct process.

Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?
Goal 3 - Strategic Growth

Unit Goal
Goal for 2010-2011
Support the educational experience for under-represented students (e.g. low-income, first generation) through college admissions and financial aid workshops; academic instruction in math and writing; and SAT/ACT prep classes.

What action(s) will you undertake to achieve the goal?
The College Reach Out Program (CROP) identifies low-income and educationally disadvantaged students and seeks to prepare and support them in their quest for a post-secondary education. This is accomplished through after-school programs facilitated by an on-site coordinator at each school who offers support and instruction in completing college applications, the financial aid process, seeking scholarships and other outside funding, SAT/ACT preparation, and experiences on the FGCU campus such as Leadership Retreats, Brain Bowl competitions, and week long summer experiences.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
The State of Florida has decreased funding for this Program, thereby resulting in elimination of one full-time staff position. Funding for summer programs has been reduced by 50% due to state budget cuts. Money is needed for CROP to support one coordinator in the amount of $46,575 along with an additional $35,000 to assist with transportation cost to bring students to campus for activities and to support summer programs.
Within your unit’s leadership team, who will be responsible for completion of the action?

The Program staff

By what means will you assess goal achievement?

Goal achievement will be assessed through participation rates, student assessments, and monitoring student improvement through report cards and transcripts.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)

Interim Report to State of Florida Annual Report to State of Florida Student academic transcripts High school graduation rate above 93% Enrollment into post secondary education will increase to over 50%

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

CROP will make programmatic changes to increase educational opportunities and graduation rates of under-represented students.

PSEP/Scholars Program

Strategic Plan Goals

With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?

Goal 3: Strategic Growth

Unit Goal

Goal for 2010-2011
Support the educational experience for under-represented students through college admissions and financial aid workshops; academic instruction in math and writing; and SAT/ACT prep classes.

What action(s) will you undertake to achieve the goal?

The Scholars Program will continue to expand its program into schools in the six county area in Southwest Florida of Lee, Collier, Hendry, Glades, DeSoto, and Charlotte counties. Partnerships will continue to grow between FGCU Scholars Program and community organizations to assist program participants with college expenses such as housing, tuition, books, and transportation costs.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?

The program serves 31 schools and needs a full-time staff member to support school programs and coordinate FGCU activities. The new position would be a PSEP Coordinator at a cost of $45,800 including salary and benefits. In addition, funding is needed for transportation costs in the amount of $15,000 to transport students to Eagle Expo during the fall and spring semester.
Within your unit’s leadership team, who will be responsible for completion of the action?
Scholars’ Program personnel

By what means will you assess goal achievement?
Participation rates, student assessments, and monitoring student improvement through report cards and transcripts will be used to assess goal achievement.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey... benchmarks should include current status and goal to be achieved)
The program had a 94% graduation rate at the end of 2008-2009. Graduation rates will continue to be the focus of the program along with academic achievement.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
High school graduation rate will increase for under-represented students and enrollment into postsecondary education will increase.

Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?
Goal 2: Student Life, Growth, and Development

Unit Goal
Goal for 2010-2011
Enrich the educational and cultural experiences for eligible participants through benefits such as grant aid, educational workshops, financial literacy, cultural opportunities, and access to technology, thereby increasing retention and graduation rates among under-represented population at the University

What action(s) will you undertake to achieve the goal?
The program will expand grant aid opportunities for freshmen and sophomores, the group most at risk of dropping out of college because of financial burdens. The program will strive to expand the resource lending library of textbooks, realizing that the cost of books is also a financial burden for students. The program will encourage students to complete the FAFSA and to apply for FGCU Foundation scholarships prior to the deadline. The program will continue to offer workshops in career development, financial literacy, time management, study skills and other areas as needed to enrich the student’s academic experience. The program will utilize e-learning software to allow students to access program information online.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and
define existing as well as new resources that will be required?
required 33% totaling $9,737. In addition, the Financial Aid Office allocated $25,000 to assist SSS participants with their college expenses. The Financial Aid Office commitment, $25,000, along with an additional $25,000 would assist the SSS participants with their college expenses including tuition, housing, textbooks, and other course materials.

Within your unit’s leadership team, who will be responsible for completion of the action?
Student Support Services personnel

By what means will you assess goal achievement?
Formative and summative evaluations

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
During the 2008-2009 academic year the program reached the following goals, which were reported to the U.S. Department of Education in November 2009: 96% of all participants served by SSS persisted from the 2008-2009 to the 2009-2010 academic year or graduated. 97% of all participants served by SSS met the performance level required to stay in good academic standing at the grantee institution. 45% of the 2003-2004 cohort graduated by 2008-2009. For the 2010-2011 academic year the program will: Graduate 40% of the 2004-2005 cohort Have at least 85% of the participants in good academic standing Have at least 85% of program participants persist into the 2010-2011 academic year or graduate with a bachelor's degree.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
SSS will make programmatic changes to increase educational opportunities and the graduation rate of under-represented students.

Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?
Strategic Plan Goal 1 - Academic Excellence

Unit Goal
Goal for 2010-2011
Goal (1) Scholarships and Grants - Increase the amount of scholarships and grants awarded annually by 5%.

What action(s) will you undertake to achieve the goal?
University Advancement will continue to secure endowments, scholarships, and grants in 2010-2011 by: Soliciting past First Generation Scholarship donors in the fall of 2010. Including First Generation Scholarships as a stated option on the annual giving campaign letters. Conducting the Scholarship Luncheon, scheduled for fall od 2010, to introduce scholarship recipients to their donors, thereby encouraging additional gifts. Soliciting endowed scholarship donors to make additional gifts to their endowments in December 2010. Since we anticipate that the market will not be rebounding soon, we plan a special solicitation letter to endowed donors explaining the difficulties in awarding scholarships due to the investment market conditions and will request additional gifts for their scholarships.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
There is a direct correlation between the amount of money raised and the dollars spent, with dollars spent on staff having the highest positive correlation. At this point, there are other University needs which exceed the needs of this Division. Therefore, we will need only slight increases to the budget to keep pace with the increases in the costs to operate the office.

Within your unit’s leadership team, who will be responsible for completion of the action?
The primary individuals responsible for this action are the Development Officers and the Executive Director. The Scholarship Luncheon is also the responsibility of the Events Department.

By what means will you assess goal achievement?
Comparisons will be made between scholarship and grant awards in 2009-2010 and those made/expected to be made in 2010-2011.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
We will know that we have successfully attained the goal if the number and dollar amount of scholarship issued increases for 2010-2011 by more than 5% over 2009-2010.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Increased scholarships will provide greater access to educational opportunities. With greater financial support, students will be able to focus on academic pursuits and this should improve retention rates. We will also be increasing merit based scholarships and helping to increase the quality of the honors program by assisting with the Speakers Program. Diversity will also improve as a result of successfully meeting this goal. FGCU expects to have 12,000 student by fiscal year 2011. In order for that to occur, an increased number of scholarships/grants will be necessary.
Strategic Plan Goals

With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?

Strategic Plan Goal 1 & 6 - Academic Excellence and Community Engagement

Unit Goal
Goal for 2010-2011
Goal (2) Identify Donors for Programs - Identify donors and community partners to support development of proposed undergraduate and graduate programs.

What action(s) will you undertake to achieve the goal?
University Advancement will identify prospects for strategic and major gifts using the following actions: A prospect researcher will be engaged to identify new donor prospects. Selected Foundation Board members will be asked to identify and introduce peer donor prospects. University Advancement will solicit major donor prospects and conduct annual fund campaigns for employees, alumni, parents, and friends.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
There is a direct correlation between the amount of money raised and the dollars spent, with dollars spent on staff having the highest positive correlation. At this point, there are other University needs which exceed the needs of this Division. Therefore, we will need only slight increases to the budget to keep pace with the increases in the costs to operate the office.

Within your unit’s leadership team, who will be responsible for completion of the action?
The Development Officers, the Alumni Director, Annual Fund Director and the Executive Director

By what means will you assess goal achievement?
A target goal of 3% additional donors and community partners has been established for 2010-2011 to support undergraduate and graduate programs. The donors' names will be recorded and the total number counted.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
We will have attained our goal if the number of donors for the year has increased by 3% or more.

How will the results of the above assessments be used to improve fulfillment of the university's mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
New donors will join existing donors in providing the additional resources necessary to support FGCU's funding priorities for 2010-2011. We will have increased support to the University for Scholarships, Professorships, Academic Programs and Buildings.

Strategic Plan Goals

Strategic Plan Goal 1 & 6 - Academic Excellence and Community Engagement

Unit Goal
Goal for **2010-2011**
Goal (3) Quality Facilities - Secure private funding for priority buildings on the PECO list.

What action(s) will you undertake to achieve the goal?
A prospect researcher will be engaged to identify new donor prospects. Selected Foundation Board members will be asked to identify and introduce peer donor prospects. Prospects will be prioritized and top prospects for the projects will be solicited for strategic gifts.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
There is a direct correlation between the amount of money raised and the dollars spent, with dollars spent on staff having the highest positive correlation. At this point, there are other University needs which exceed the needs of this Division. Therefore, we will need only slight increases to the budget to keep pace with the increases in the costs to operate the office.

Within your unit’s leadership team, who will be responsible for completion of the action?
Development Officers and the Executive Director

By what means will you assess goal achievement?
The goal will be assessed by how much money has been raised to either actually construct a building or enhance a state supported building.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)
We will attained our goal if we are able to build or enhance the current buildings on campus.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
State of the art facilities will help FGCU to attract the best and brightest in both Faculty and Students. Students taking classes in new facilities will have new state-of-the-art equipment to enhance their learning experiences in their disciplines.

Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?
Strategic Plan Goal 6 - Community Engagement

Unit Goal
Goal for **2010-2011**
Goal (4) Foundation Fundraising - Raise $?? Million
What action(s) will you undertake to achieve the goal?

University Advancement will solicit gifts from donors and prospects for priorities after determining the readiness of prospective donors to move into the pledge/gift phases. In order to achieve this goal, University Advancement will complete the following actions: Submit proposals. Plan and execute mini-campaigns for priority projects. Publish the Executive Director’s Quarterly Newsletter for Foundation Board members. Hold prospect receptions and fundraising events. Host donor recognition events. (For example, the annual deferred donors brunch hosted by the president.) Publish the Annual Report, including Contributor Roll. Conduct proper stewardship for current donors. (For example, hold the annual Scholarship Luncheon for endowed scholarship donors, report scholarship fund balances to scholarship donors, and continue to communicate with donors through Pinnacle, the University magazine.) Mail over 30,000 letters during the annual fund campaigns. Sell more than 1,800 FGCU license plates annually.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?

There is a direct correlation between the amount of money raised and the dollars spent, with dollars spent on staff having the highest positive correlation. At this point, there are other University needs which exceed the needs of this Division. Therefore, we will need only slight increases to the budget to keep pace with the increases in the costs to operate the office.

Within your unit’s leadership team, who will be responsible for completion of the action?

This is a Foundation department wide goal, therefore, all the Development Officers, Directors and the Executive Director.

By what means will you assess goal achievement?

Sum totals of gifts will be retrieved from donor records maintained in financial systems.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)

We will have attained our goal if the sum total of gifts received for the fiscal year exceed the stated goal.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

The use of donated funds will continue to fund scholarships and grants, create and support academic programs and faculty positions, and build facilities, thereby supporting students both directly and indirectly. The quality and breadth of learning opportunities will continue to improve and expand in direct proportion to levels of state and private funding.

Strategic Plan Goals

Strategic Plan Goal 6 - Community Engagement
**Unit Goal**

**Goal for 2010-2011**

Goal (5) Athletic Operating Funds - Secure athletic operating funds for NCAA Division I.

**What action(s) will you undertake to achieve the goal?**

Develop a plan to raise a minimum of $650,000 for the annual operating budget of the Athletic program. Increase Booster Club participation by 10%. Determine naming opportunities and donor prospects for those opportunities.

**What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?**

There is a direct correlation between the amount of money raised and the dollars spent, with dollars spent on staff having the highest positive correlation. At this time other Athletic Department needs have priority. We will also be relying on volunteers to attain our goal.

**Within your unit’s leadership team, who will be responsible for completion of the action?**

The Associate Athletic Director for External Affairs, the Athletic Director, the Director of Corporate Giving and the Foundation Executive Director

**By what means will you assess goal achievement?**

We will measure the total dollars raised for Athletics and we will measure the participation in the Booster Club.

**How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey... benchmarks should include current status and goal to be achieved)**

Goal attainment will be determined when raised funds exceed the $600,000 goal and Booster Club participation will have grow by 10%.

**How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?**

When completed, the new funding will provide scholarships and operating money to allow the program to improve recruitment, increase gate and concession revenue, and bring additional recognition to the University.

---

**Unit Goal**

**Goal for 2010-2011**

Goal (6) Planned Giving - Document new revocable and irrevocable deferred gifts
What action(s) will you undertake to achieve the goal?

- Making presentations to professional organizations in Collier and Lee Counties.
- Hosting the fourth annual Planned Giving Symposium of Southwest Florida in the spring of 2011.
- Serving as the vice president of the board of directors for the Planned Giving Council of Lee County.
- Hosting VIP nights at basketball and baseball games, conducting campus tours for various local communities, and scheduling faculty speakers for several retirement communities.
- Maintaining and updating the planned giving website using Red Dot.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?

There is a direct correlation between the amount of money raised and the dollars spent, with dollars spent on staff having the highest positive correlation. At this point, there are other University needs which exceed the needs of this Division. Therefore, we will need only slight increases to the budget to keep pace with the increases in the costs to operate the office.

Within your unit’s leadership team, who will be responsible for completion of the action?

The Primary responsible will be with the Director of Planned Giving and the Executive Director.

By what means will you assess goal achievement?

The number of new members in the Covenant Society, Heritage Society, and Legacy Society were counted.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey... benchmarks should include current status and goal to be achieved)

The goal will be attained when new deferred and estate gifts are confirmed at the end of the 2010-2011 fiscal year.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

Additional deferred gifts provided significant resources for student scholarships, University programs, facility enhancements, and the endowment, thereby promoting enhanced learning opportunities for students today and in the future.

Strategic Plan Goals
With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?

Strategic Plan Goal 6 - Community Engagement

Unit Goal
Goal for 2010-2011

Goal (7) Alumni Relations – Increase dues paying members, contributions, services, involvement, and programs.
What action(s) will you undertake to achieve the goal?

Streamline membership tracking. Develop electronic communications that include the alumni website, e-mail, and potentially texting, to advertise events, memberships, and services. Increase functionality and ease of use of alumni website. Offer services to alumni that include FGCU alumni social networking pages, affinity programs, print publications, and an electronic newsletter to maintain contact with alumni. Develop community partners to participate as event sponsors. Utilize the Alumni Board of Directors as supporters of the FGCU Alumni Association.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?

There is a direct correlation between the amount of money raised and the dollars spent, with dollars spent on staff having the highest positive correlation. At this point, there are other University needs which exceed the needs of this Division. Therefore, we will need only slight increases to the budget to keep pace with the increases in the costs to operate the office.

Within your unit’s leadership team, who will be responsible for completion of the action?

The primary individuals responsible are the director of alumni relations and the coordinator of alumni programming.

By what means will you assess goal achievement?

Increase the number of valid alumni mailing addresses, e-mail addresses, and telephone numbers. Count the number of new annual memberships. Calculate renewal rates and upgrades to lifetime memberships. Increase the amount of contributions provided by alumni and community partners. Increase online web and social networking activity and involvement.

How will you know if you have successfully attained each goal?(e.g., a set of criteria, benchmark, survey...benchmarks should include current status and goal to be achieved)

The goal will be attained when memberships, updates, and online activity reports are reviewed at the end of the 2010-2011 fiscal year.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?

Analysis of the information will ultimately determine areas of alumni interest where they can become involved financially, or through obligations of time and resources. Several programming events will continue to benefit student scholarship and alumni will continue to be identified to assist with campus speaking opportunities and student mentorship.

Strategic Plan Goals

With which 1 or 2 goals from the strategic plan goals does your 2010-2011 goal best align?

Strategic Plan Goal 6 - Community Engagement

Unit Goal
Goal for 2010-2011
Goal (8) Community Outreach—Develop Community Outreach Efforts

What action(s) will you undertake to achieve the goal?
Establish an ongoing budget for Pinnacle magazine Editorial and graphic redesign of Pinnacle magazine Mail Pinnacle magazine to all alumni once a year Design and launch a new, interactive Web edition of Pinnacle magazine Redesign CRM Web pages Create an online database for photo sharing among university departments Create a FAQ Web page to assist faculty and staff in securing publicity for their programs Update the online campus tour and incorporate an interactive campus map Launch the new public television program FGCU Perspectives, which will appear monthly on WGCU Launch the new, monthly FGCU Newscast, a web-based 10-15 news summary program Expand, and where appropriate consolidate, the use of social media in marketing FGCU—including the creation of an FGCU YouTube channel and Flicker slideshows Expand or introduce the use of video, podcasts, and flicker slideshows on the FGCU website Expand work with development officers to market fundraising initiatives; will include print and electronic media Conduct research to determine the effectiveness of CRM Communications

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
Establishing an ongoing budget for Pinnacle magazine and conducting research will require investment from the university. Other initiatives outlined above will require minimal new funding.

Within your unit’s leadership team, who will be responsible for completion of the action?
Assistant Vice President for Community Relations and Marketing

By what means will you assess goal achievement?
For electronic communications, Google analytics will be a tool for measuring success. CRM will collaborate with WGCU to determine viewing habits for FGCU Perspectives, which may take some time to build an audience. Marketing efforts in support of development and alumni activities will be measured by donor and alumni response.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey... benchmarks should include current status and goal to be achieved)
If funded, research will inform CRM about how well our messages are being communicated and absorbed by our audiences. Financial gifts and alumni engagement will determine the success of development and alumni initiatives.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Feedback from our audiences will help identify how well communications are projecting the university’s strategic strengths. Where communications are missing the mark, refinements will be made to better reflect university priorities.

Strategic Plan Goals

best align?
Strategic Plan Goal 6 - Community Engagement

Unit Goal
Goal for 2010-2011
Goal (9) Mass Media—Maximize use of mass media

What action(s) will you undertake to achieve the goal?
Evaluate media outlets, then strategically place media buys for maximum reach and frequency. Continue to send press releases and media advisories to appropriate media outlets. Work with campus departments to ensure that releases not sent through CRM are effectively written and contain timely, complete information. Hold press conferences for appropriate announcements. Target select stories to media outlets likely to use the stories as features.

What resources are involved to fulfill the objective (e.g., technology, new faculty/staff, etc) and define existing as well as new resources that will be required?
Unless the university determines that advertising from CRM should expand, goals will be accomplished with no new funding from the university.

Within your unit’s leadership team, who will be responsible for completion of the action?
Vice President for Community Relations and Marketing

By what means will you assess goal achievement?
Quantify the number of stories printed, audiences reached, ad responses received, electronic media covered, and website hits.

How will you know if you have successfully attained each goal? (e.g., a set of criteria, benchmark, survey... benchmarks should include current status and goal to be achieved)
Informal feedback from the community via e-mails, Web pages, and comments from entering students, donors, and friends of FGCU will help confirm goal achievement. Quantifiable data supplied by subscriptions to clipping services will confirm the size of audiences reached in mass media.

How will the results of the above assessments be used to improve fulfillment of the university’s mission (e.g., student learning, faculty research/scholarship, university services, etc.)?
Positive outcomes and feedback will generate refinements and continuation of the effort. Negative outcomes will generate a review of the effort and a redesign of the action.
