Environmental Sustainability Committee  
October 20, 2010  
Holmes Engineering HE 109  
Noon – 1:00 pm

In attendance: Lewis Johnson, Annette Snapp, Hulya Yazici, Patricia Rice, Peter Corcoran, Mike Savarese, Simeon Komisar, Laura Layton

Guests: Ron Toll, Greg Tolley, Kathy Miller

Notes: Kathleen Crawford

Meeting Summary:
The committee discussed the Sustainability Goals for Academic Affairs with the Provost and the deans that were present. Dr. Toll let the group know that he had shared the goals with the Deans’ Council and asked his areas for an inventory of courses that have a sustainability/environmental focus. Some of the goals on the list are easier to execute, while others are more problematic in how they are written. The committee was in agreement that the goals would be reviewed and in some cases re-written to ensure that goals are achievable and that what we intend to be incentives do not become de-motivators or punitive in nature.
