Welcome to Gulfline . . .

Florida Gulf Coast University is committed to providing and creating student-centered technology support services that will enable the user direct access to personal records and institutional information.

How to access Gulfline . . .

To use Gulfline students must have a User ID and PIN. The User ID (Student ID) is a nine digit number. The PIN (Personal Identification Number) will be a six digit number. These two ID numbers are assigned during the course of the application process through the admissions office.

Because the PIN acts as the student’s electronic signature, and protected under University policy and Federal law, PIN numbers will not be given out via telephone, fax, or email. Students who forget their PIN should contact the Office of the Registrar for information on how to obtain a PIN.

For security reasons, student should change their PIN at first login to Gulfline and continue to change the PIN on a regular basis. PINs must be six-digits in length and MUST NOT contain alpha-characters or lead with the number zero (0).
