President Merwin stated that Mr. Charlie Edwards had recently been appointed to the Florida Board of Governors and that he has invited Mr. Edwards to any Board meetings he is able to attend.

President Merwin announced that we have recently purchased acreage in Naples that will be the future site of FGCU’s new Naples Center and that a fundraising campaign has begun.

President Merwin stated that we continue to receive high marks for the University Lecture Series featuring former President Mikhail Gorbachev. President Merwin thanked Provost Yegidis and the hard work of many staff members from Academic Affairs, Advancement and Administrative Services.

President Merwin reported that in the last few weeks we have been approached by Mr. Syd Kitson and Partners who have offered us fifty acres of land and $5 million which is matchable in the Murdock area. The other prior offer was from Stock Development and O.J. Buigas/Private Equity Group for 150 acres on Bermont Road, $5 million and a transfer fee mechanism that is anticipated to generate approximately $750,000. President Merwin stated that there has been a great deal of interest in Charlotte County and there have been a number of ideas mentioned including one regarding Edison College’s Charlotte Campus located in Punta Gorda. He stated we have not given a great deal of consideration to that idea. The Charlotte County Commission will make a decision later this month regarding this matter.
President Merwin reported on a recent proposal to Edison College submitted at a meeting with President Walker and others last week. The proposal addresses lower division course offerings Edison does not offer in Charlotte County and yet are necessary for a timely degree path toward the FGCU bachelor’s degree. He stated the group also discussed that FGCU would like to have the right of first refusal for bachelor’s degree offerings in Charlotte County, and as such, serve as the primary partner in the Edison College University Center. A copy of the proposal was handed to each Trustee.

President Merwin stated that at the Board’s last meeting, the Trustees authorized contacting the NCAA to inform them that we would be interested in moving to Division I provided we could have an affiliation with a Division I Conference. He stated that in that spirit, Mr. McAloose has notified the NCAA and also has made contact with the Atlantic Sun Athletics Conference, who paid a visit to us. Commissioner Bibb and the visiting team were very positive about FGCU, and we hope to hear back within the next couple of months regarding our membership. President Merwin stated that we are adding men’s and women’s soccer and women’s swimming and that we are currently recruiting coaches for each of these sports.

President Merwin reported that the Transportation Management Center (TMC) is an initiative we proposed on our campus during a Town Meeting hosted by Congressman Connie Mack and attended by U.S. House Transportation and Infrastructure Committee Chairman Don Young. He stated that the TMC would provide an electronic means for providing information to drivers on interstate highways. President Merwin reported this project is related to the Coconut Road interchange and we have supported this interchange for three reasons: 1. the TMC, 2. improved access to the FGCU campus for local citizens, and 3. opportunities for greatly needed alternative access to FGCU through a proposed connection between Coconut Road and CR 951 extension. President Merwin stated that we will eventually have twenty thousand students on our campus and it is unacceptable for us to have only one road, Ben Hill Griffin Parkway, and two access points onto the campus.

President Merwin reported that there will be three honorary degrees awarded at the April 29th spring Commencement. At the 9:00 a.m. ceremony we will be honoring Drs. Ruth and Burtt Holmes. At the 2:00 p.m. ceremony we will honor retired FGCU professor, Roy Mumme.

President Merwin reported that we have requested $5 million for infrastructure; we have nearly $8 million for the Lutgert College of Business
Building; that there is another portion for $16 million eight hundred thousand for another classroom building. President Merwin stated there is a Performing Arts Center in this budget. President Merwin reported that there are two other issues that we made requests for funds for a chiller plant and some student recreation fields that total $7 million.
