SUBJECT: Nomenclature Change for an Existing Baccalaureate Degree Program: B.S. in Exercise Science

PROPOSED BOARD ACTION

Approve program nomenclature for the existing baccalaureate degree program from Bachelor of Science (B.S.) in Human Performance to B.S. in Exercise Science effective fall 2012.

BACKGROUND INFORMATION

FGCU is requesting permission to make the following nomenclature change for an existing degree program: from B.S. in Human Performance to B.S. in Exercise Science effective fall 2012. The Classification of Instruction Program code for this program will remain the same (CIP 31.0505, Kinesiology and Exercise Science).

The nomenclature change will reflect the recommendation of an external reviewer during the most recent Human Performance program review (AY10-11). The recommendation was also supported by the Program Review Team, a standing team of the FGCU Faculty Senate. The nomenclature change will reflect a more contemporary approach to the study of human movement as it relates to exercise physiology.

The nomenclature change has been approved by the college curriculum team and the university-wide Undergraduate Curriculum Team. The program remains consistent with Florida Board of Governors Regulation 8.011 Authorization of New Academic Degree Programs and Other Curricular Offerings.
